SUMMARY

B.Tech student at V.B.S.P University, eager to apply my skills to real-world problems. Proficient with **HTML**, **CSS**, **Java**, **Python**, **JavaScript**, **Typescript**, **NextJs**, **full-stack web development** (**MERN** stack), **D.B.M.S**, **MySQL**, and **DSA**. Seeking an internship to contribute, learn, and gain practical experience.

SKILLS

- C / C++
- Python
- Java
- HTML
- MongoDB
- ExpressJs
- CSS
- MERN
- Git / GitHub
- JavaScript
- Machine Learning
- Typescript
- NodeJs
- React
- NextJs
- DBMS
- MySQL
- scikit-learn

EXPERIENCE

App developer Intern
Messold Technologies, Delhi

June 2024 – Aug 2024

I developed a comprehensive dashboard that enabled our clients to effectively monitor and analyze their marketing spend across multiple platforms.

- **Google Developer project**: Created a Google Developer project and configured the consent screen for _OAuth2.0_. Fetched our client data from _Google ads_.
- **Meta for Developer**: Created a Meta Developers testing app and Successfully fetched _Facebook Ad_ Campaign ID spending data.
- **Shopify API**: Created a Shopify app with useful scopes for spending and obtained the App Key, Secret, and Access Token. Successfully fetched data from the store.

PROJECTS

Blogify

Blogify is a dynamic web application built with the MERN stack (MongoDB, Express.js, React.js, Node.js) that has attracted over **100+ unique users** and manages a database of **over 150** data points. This project served as a learning ground, taking 3 weeks to complete. _Please wait 1-1.5 minutes as the backend is on a free tier_

CineVault

Built a movie and catalog search application that utilizes the TMDB API to fetch data efficiently, processing and displaying information for over 100,000 movies and TV shows. Designed a user interface that prioritizes clarity and ease of use, ensuring a smooth user experience for thousands of daily users.

Threads

Threads is an e-commerce website that efficiently handles Shopify data by fetching it from the backend, ensuring smooth performance and compliance with CORS policy. Threads delivers a seamless shopping experience for users. _Please wait 1-1.5 minutes as the backend is on a free tier_

EDUCATION

Bachelor of Technology in Computer Science
College: Veer Bahadur Singh Purvanchal University
• 08/2023–07/2027   _Current CGPA - 8.50_

Secondary school
School: St. Francis Convent School, Bareilly
• 03/2010–04/2022   _86% in Boards exams_

ADDITIONAL INFORMATION

- **Soft Skills:** Communication, Problem-solving, Critical thinking, Debugging, Fluent English, Teamwork.
- **Languages:** Fluent in English and Hindi.
- **Certifications: Specialist and Achiever are awarded by CodingNinjas**
